

Cat Towers made in Eagle Project

Part 1: Fabric Pattern

Cut fabric into a 22in by 27 in rectangle. Cut out 6in squares on all four corners. Stay stitch each corner.

Fold flaps edge to be even with the cut out corners, sew $\frac{1}{4}$ in seam.

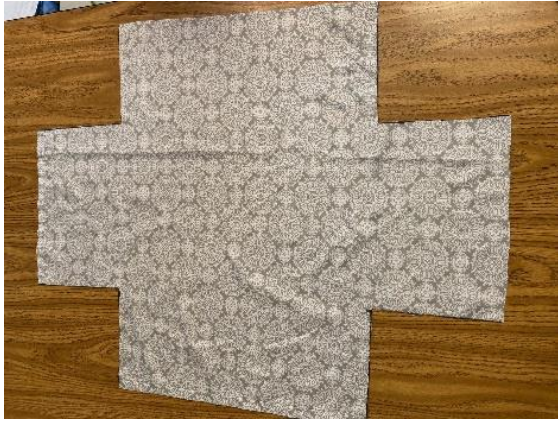

Photo of finished product front and back
Diameter of the PVC you are using: 1 inch

Thread pipes through and assemble top.

Recommended materials: fleece lined with cotton for stability, terrycloth, or heavy duty faux fur.

These are designed to be removable and washed.

Part 2: Frame materials and building instructions

Materials:

10ft x 1" PVC 40

4 x 1" caps

4 x 1" 3 way elbows

5 ft x 5mm twine rope

glue sticks

Bed assembly

Out of the PVC cut 4 x 14" leg pieces, 2 x 11" side pieces, 2 x 15" side pieces.

Put a cap and elbow on each 14" piece. With a hot glue gun, glue the twine onto 2 of the 4 legs.

Thread the 15" and 11" pieces into the sling.

Insert side pieces into elbows.

Make sure every thing is secured tightly before your furry buddy enjoys!
